Educational Works for Piano by

HAZEL GERTRUDE KINSCELLA

ONLY a comparatively short time has elapsed since G. Schirmer, Inc., submitted Miss Kinscella's "First Steps," to the public, this being the first important work of the composer to appear. At the present time, educators in all parts of America regularly use the writings of this brilliant young teacher, and their number is constantly increasing. The success of the Kinscella books and pieces is due to their being unquestionably practical: all of the principles they embody are the result of careful experimentation in the composer's own activities. These works are recommended by supervisors of music in the public schools.
